WRITTEN OPINION OF THE
INTERNATIONAL SEARCHING AUTHORITY

International application No.

PCT/EP2004/012114

Box No. V	Reasoned statement under Rule 43bis.1(a)(i) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement		
1. Statement			
Novelty (N)	Claims	1-10	YES
	Claims		NO
Inventive step (IS)	Claims	1-10	YES
	Claims		NO
Industrial applicability (IA)	Claims	1-10	YES
	Claims		NO
2. Citations and explanations:			
<p>The present invention relates to a synergistic fungicidal mixture of a triazolopyrimidine derivative (I) and carbendazim (II).</p> <p>D1 (WO9846607) describes the compound (I) together with analogues thereof and mentions (II) as possible mixing partner within list, where the claimed combination <i>per se</i> is not disclosed unambiguously and where no clear teaching exists in connection with such a combination. The present application therefore satisfies the criterion in PCT Article 33(2) because the subject matter of claims 1-10 is novel in relation to the prior art as defined in the Regulations (PCT Rule 64.1-64.3).</p> <p>D1 mentions a possible synergistic effect when using certain compounds of the general formula (I) together with certain compounds from amongst list (II), without containing an unambiguous teaching. The skilled worker would have to choose within 2 lists, hoping for, rather than expecting, an increased effect. The present application therefore satisfies the criterion in PCT Article 33(3) because the subject matter of claims 1-10 involves an inventive step (PCT Rule 65.1-65.2).</p> <p>The present application satisfies the criterion in PCT Article 33(4) because the subject matter of claims 1-10 is considered to be industrially applicable.</p>
